

Science and Technology Technician – Temporary Post

We are seeking to appoint a Science and Technology/DEC Technician. This is a temporary post (with a view to becoming permanent) to commence as soon as possible.

Information about the school

Atrium opened its doors in 2015 as a brand new Studio School for students in Years 9-13, specialising in the Built Environment – the first of its kind in the South West.

Located in architect-designed premises where students learn in the building and from the building, Atrium Studio provides an education for those aspiring to professional careers in areas including Architecture, Interior Design, Ecology, Structural Engineering, Surveying and Planning

In January 2018, Ofsted rated us 'Outstanding' in personal development, behaviour and welfare of students, and recognised that our small class sizes create a supportive learning environment. Students thrive as we actively engage in Project-Based Learning (researching, designing and planning a product, publication or presentation) which increases confidence, as well as collaborative and practical skills.

We are passionate about education. We are dedicated to providing the Devon community and its young people with an outstanding school environment to encourage and support students to become independent, reflective and motivated learners. Our mission is to prepare our students for successful professional careers and expose them to a culture of success through our well-developed professional partnerships with employers. Our students regularly engage in workshops, mentoring programmes and work experience to allow them to develop their industry-ready attributes.

The environment that we have created here is extraordinary, and we welcome candidates who wish to become part of our dedicated team of governors, students, staff and parents who make it the school it is.

Please visit our website (www.atrium-studio.co.uk) to see for yourself the potential that exists or contact Mary Hodge on 01364 655399 or mhodge@atrium-studio.co.uk. She will arrange a mutually convenient time for you to visit or discuss the post further.

Please note that although we still receive emails over the holidays, there may be a slight delay in response depending on staff availability.

Atrium Studio School is committed to safeguarding and promoting the welfare of children and young people and expect all staff and volunteers to share this commitment. The successful candidate will require an enhanced DBS check.

Closing Date for applications is **Midday Monday 15th October 2018**

Interviews will be held on Tuesday 16th October 2018
